Wing's Farian Crackers.

ALL those who may wish to procure WING'S CELEBRATED CRACKERS should be on their GUAED AGAINST IMITATIONS, as some are making ordinary Crackers the size of WING'S FARINA, and are endeavoring to sell their articles by calling them

We are credibly informed that some retailers have been found

actually aiding these deceptions, by offering to their own customers these inferior crackers at the full price of WING'S FARINA. with an infimation that they were the same as Wing's; and all this is done simply because the imitation article afforded them a

Of course those who confide in their family grocer, as all must de to a certain extent, to sell them genuine and good ar fair prices, will not continue to patronize any one who attempts

business of selling family groceries to render it necessary for any family to encourage any individual acting thus.

In order to avoid such deceptions, buy no Crackers for Farina ALL OF WING'S CRACKERS ARE FARINA.

The name A. WING is stamped upon every true Farina Crack-r made: be sure and purchase none but those having this stamp. WING'S FARINA CRACKERS may be procured of the best Pamily Grocers generally, by whom they are extensively sold in different pertions of the United States, and at wholesale only of A. N. The LATIN-ENGLISH SCHOOL-LEXICON,
On the basis of
The LATIN-ENGLISH SCHOOL-LEXICON,
Of Dr. C. F. Ingerslev.

By C. R. CROOKS, D. D., and A. J. SCHEM, A. M.
One volume, royal octavo.
Price 43.
The authors of the present work had at first the intention of
praparing for American Schools and Colleges a translating of the
theirent Latin German School Lexicon of Prof. Ingerslev. The
plan of the work seemed to them to be a decided improvement
in Latin lexisography, and to meet more fully than its predceasers the wants of students. They had not proceeded far,
however, in their labris, before they become sexies of the necessily of recasting many of the articles and of adding new cases.
They decided, therefore, to prepare an entirely lude-pendent
work, using the Lexicon of Ingerslev only as a basis. For this
purpose the whole of textool interacture has been carefully examther,—aspecially the recent works of Dr. W. Smith, Georges (the
set efficion of 1955), Keb and Nices-from all of which numeerous
suggestions have been derived and additious made.
The School Lexicon of Prof. Ingerslev has met, in Germany,
with extraordinary sucreas, as spears from the encondume of
crainest German scholars. The planes of the critics are expecially
bestured upon the excellence of Ingerslev's plan. We have
taken great pains to preserve for our work all of the characteristic
features of this plan, and at the same to improve it in the execution of details.

This went gives

1. SPECIAL ATTENTION to the words of Latin authors read
in ceileges and Schools.

2. The LEADING DEFINITIONS in broad and clear type, so

is Celleges and Schools.

2. The LEADING DEFINITIONS in broad and clear type, so as to be curly caught by the eye.

3. The SIGNIFICATION persplanning arranged and illustrated by examples could understood, or if difficult, carefully thanks by examples could understood, or if difficult, carefully thanks.

4. The ORIGIN of each word, where it is known.
4. A COMPARISON of important words with their synonyms.
5. BRIEF NOTICES of proper names, and of the adjectives

a BRIEF NOTICES of proper tames, and of the adjectives entired from the me.

From the Rev. Dr. John McCLivrock, New York.

Fi am acquainted with lugerslev's Latin Lexicon, and believe it to be the best of the many a hool lexicons now extact in Germany. Indeed, this is the testiment of many of the best gymnalities the certainty of many of the best gymnalities are some analysis of the best gymnalities and the opportunity whatever commendation may be given to linguished a similar age amply due to Crooks and Schem's Lexicon. I have examined a position of the proof sheets, and have that the opportunity of personally knowing how carefully and conscientiously the athers have carried on the work throughout. Their book retains beginnless's perspicuous arrangement; but in point of etymological matter, of attention to proper names, of descrimination in the feveral use of the material, and of adaptation to the wants of stuckers, it is far in advance of its German prototype. The work toget to find its way at cone into all our classical schools, and into the lower college classes.
